Collecting waste and cutting chain system

Collecting waste and cutting chain system

Collecting waste system

F-01

F-02

- Accelerates and improves production thanks to cutting chain system
- Reduces consumption of thread through its short cutting
- Waste suction
- Maintains cleanliness of work station
- Lengthens machine life
- Easy to install and user-friendly
- Can be use to every overlock
- When ordering it is important to give concrete machine class

UMA FITOPEK
