

Pavla Klopanová

STUDENTS 'INTRODUCTION

Join our Padlet and introduce yourself with a post. Feel free to comment on posts, ask questions if you wish to learn more on anyone in the team

Hello from Liberec.

My name is Pavla. English language lecturer at Technical University of Liberec, the Czech Republic. Music. Friends. Travels. Walks. Funny sessions with my university students. My own mix-ups. Tasty wine. Cold beer. Dark chocolate. And many more that keep me going or speak for me.

Looking forward to meeting you all.

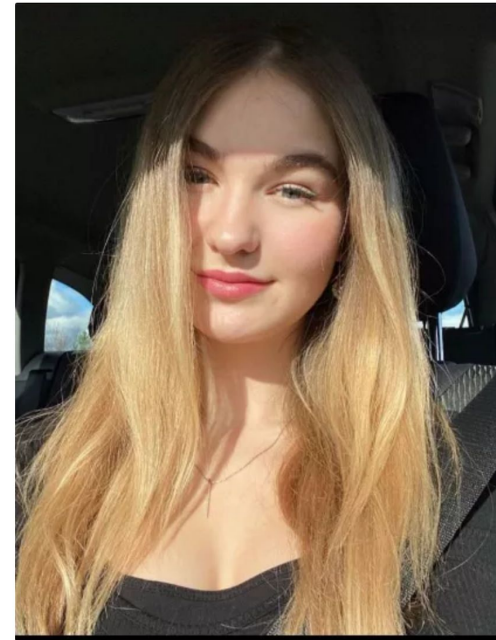

Hi, I'm Markéta

Hi, I'm Markéta, a 22-year-old economics student at the Technical University of Liberec. I work on my own. I have an online store with bags, backpacks, wallets... My friends call me an angel because I'm kind and empathetic. When I'm not studying or working, I like climbing walls. During my free time, you can find me with my partner and our family of eleven chickens(hens) and a cat, enjoying nature and outdoor activities. I'm looking forward to collaborating with you on the project. 😊

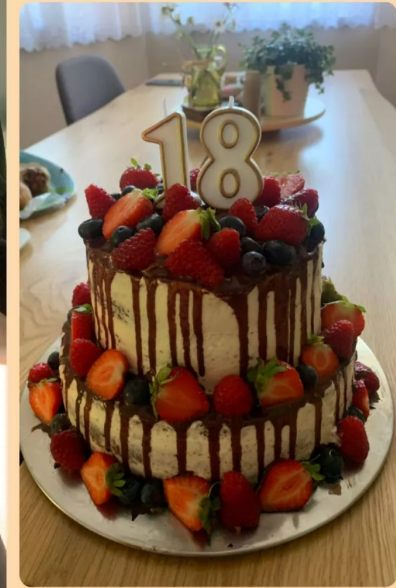

Hi, I am Eliška

Hello, my name is Eliška Kněbortová and I am a university of economic student. I have had a strong interest in economics and accounting since I studied economics high school. Now something about me :), I have a part-time job as an accountant, where I have a lot of opportunities to learn new things. I am hardworking because I put a lot of effort into what I do. I am also ambitious because I have big dreams and work hard to achieve them. When I'm not at work or school, you can find me outside, in nature, with my dog, my friends or my family. I'm looking forward to collaborating with you on the project.

Hi, I am Renáta

Hi, my name is Renáta. I am 21 year old student at the Technical University of Liberec. Math, accounting, and economics were my favorite subjects in high school, which is why I chose an economics college. When I'm not studying, you can find me exploring new places around the world and baking goodies. I have been a majorette for 16 years and now I enjoy coaching the youngest members of our team. In my spare time, I am also active in sports and love to watch some series. I can't resist spending Friday nights with friends in the city, but I also like spending time with family. I am looking forward to working with you on this project.

Hi everyone, I'm Martina.

My name is Martina Svatošová and I'm 22 years old. I'm studying at the Faculty of Economics, majoring in Service Management.

I live in Hradec Králové and I commute to school 3 days a week by car. The journey takes me 2 hours, but luckily I travel together with my classmates who are as communicative as me, so the journey goes faster.

I have been working at Decathlon for over two years as a customer service advisor. I have been training and informing the store about the new loyalty program for about a year now.

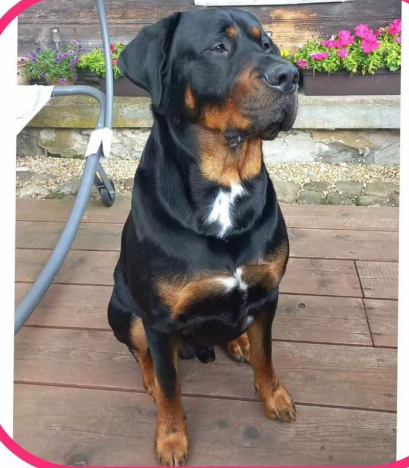

I work in a young team who love sports as much as I do. In my free time I go to the gym or spend time with friends in cafe. When I'm not at work or school, my fiancé and I visit places we haven't been before. Our favourite place so far is the Canary Islands and we will definitely go back again.

I hope we can get to know each other more as we work together on the project. 🧡

Hi, I am Kateřina

Hello! My name is Kateřina Kiliánová. I am a talkative twenty-one-year-old student at the Faculty of Economics in Liberec. I have part-time job in the logistics department. My favourite subject at university is probably marketing. And the worst subject? Definitely statistics. I think I'm reliable, single-minded, loyal and forceful. In my free time I bake cakes and desserts. When I was a child I wanted to be a teacher, now my dream is to open my own cafe. I also give a lot of my free time to my dog - a Rottweiler named Buddy. I also played floorball for eight years, but now I don't play anymore due to problems with my knee. I look forward to our project!

Hi everyone! I'm Aneta

Hello! My name's Aneta Jakubčová, I'm 22 years old and I'm in my last year of bachelor's studies at the Faculty of Economics in Liberec. My friends would describe me as communicative and always happy. I would describe myself as too much communicative and not always so happy, but smiling no matter what! :) I can't say no to a good night in city with my friends. I love nature, animals and exploring new places. My life inherently includes music, especially rock or Czech hip-hop. I also love going to concerts and festivals. On rainy days you'll find me wrapped in a blanket watching one of my favourite series with tea in my hands.

I am looking forward to collaborating with you on the project! :)

Hello, I'm Lucie

Hi, my name is Lucie and I am in the last year of my bachelor's studies at the Technical University of Liberec. Besides studying economics and management, I love to clear my head in nature or at concerts/music festivals. I love hiking/travelling and discovering new places and cities. When the weather gets colder, I really enjoy baking sweets, and since I am a creative person, I love decorating cakes, especially birthday cakes for my loved ones. I would describe myself as a friendly, communicative and enthusiastic person, which is why I am excited about this project! :)

Hi everyone, I'm Petra

Hello everyone.

My name's Petra Novotná, I am 21 years old and this year i am finishing my bachelor's degree at the Faculty of Economics in Liberec. I would describe myself as kind, empathetic and sometimes very shy. I like to travel around the Czech Republic or around the world. 🌍 Sometimes I like to go to the gym and I prefer a healthy lifestyle. But I also like to have a good burger, wine and spend the evening watching Star Wars with my boyfriend. I love all types of animals, except snakes and spiders. I have one dog and 3 cats at home. 🐶🐱 My dream is to have a good job, a big family and an Australian Shepherd.

I am looking forward to our eventual collaboration on the project! 😊

Hi! I am Verča

Hey, everybody,

My name is Veronika Lněničková, I am a twenty-one year old student of the Faculty of Economics in Liberec. I live in Čelákovice, so I live in the dorms. Since high school I became interested in economics and accounting, so economics was an obvious choice. And what am I like? I am friendly, very talkative and my family and friends can always count on me. My friends would say that I am perceptive and caring. On the other side of the coin, if I walk into a new group of people I am shy at first and it takes me a while to talk myself out of it.

When I'm not spending time with friends and family, I like to go for long walks in nature and spend time with my furry friend Lily. Besides dogs, I love all animals except snakes, mice and spiders.

I'm really looking forward to our collaboration on the project!!!

Last but hopefully not least

Hi, I'm Petr, 21 years old from Prague, the Czech Republic's capital. I'm currently studying Business Economics at the Technical University in Liberec, mainly because of its proximity to beautiful nature and mountains, something I absolutely adore. Going out into nature, especially wild traveling, is one of my greatest passions. I've explored most of the Czech Republic on foot, carrying everything I need in a backpack and sleeping under the open sky. In the past few years, I've been traveling around Europe. This year, I visited for example Latvia, and next year, I'm planning to go to Lithuania.

During my expeditions, I take on various challenges, such as walking 50 km in 12 hours, hitchhiking, or even walking with a keg of beer on our backs, until we finish it (our own sport, beerwalking). Throughout the year, I work as an accountant and subsidy specialist for several non-profit organizations, and in a few of them, I also volunteer. Also I organize events (the largest one had 1500 visitors in 10 hours). I also enjoy cooking, listening to music, video editing, hitting the gym, and swimming.
